

Utah's Outdoor Recreation Opportunities

Publication Date: May 2012

Cover Photo: Hiking in Big Cottonwood Canyon
Utah Office of Tourism / Audrey Livingston

Utah Council for Outdoor Recreation

Utah's public lands offer unparalleled opportunities for outdoor recreation. Visitor understanding of and pride in these lands is enhanced when land management agencies and tourism partners work together to provide information and create opportunities for public involvement and stewardship. The Utah Council for Outdoor Recreation includes all the partners shown on this map. Together, we work to provide consistent visitor information, including stewardship, safety, resource conservation, and educational materials.

Lake Powell, Glen Canyon National Recreation Area - Utah Office of Tourism

Leave No Trace is a national and international program designed to assist outdoor enthusiasts with their decisions about how to reduce their impacts when they hike, camp, picnic, snowshoe, run, bike, hunt, paddle, ride horses, fish, ski or climb. Leave No Trace is best understood as an educational and ethical program, not as a set of rules and regulations. Leave No Trace's principles of leaving no trace while enjoying the outdoors are:

- Plan Ahead and Prepare
- Travel and Camp on Durable Surfaces
- Dispose of Waste Properly
- Leave What You Find
- Minimize Campfire Impacts
- Respect Wildlife
- Be Considerate of Other Visitors

To learn more about how you can reduce your impacts to the environment while enjoying the outdoors, visit the Leave No Trace website at www.lnt.org.

Tread Lightly!® is a national nonprofit organization with a mission to promote responsible outdoor recreation through ethics education and stewardship. Tread Lightly's core principles of recreating responsibly outdoors are:

- **Travel Responsibly** on land by staying on designated roads, trails and areas. Go over, not around, obstacles to avoid widening the trails. Cross streams only at designated fords. When possible, avoid wet, muddy trails. On water, stay on designated waterways and launch your watercraft in designated areas.
- **Respect the Rights of Others** including private property owners, all recreational trail users, campers and others so they can enjoy their recreational activities undisturbed. Leave gates as you found them. Yield right of way to those passing you or going uphill. On water, respect anglers, swimmers, skiers, boaters, divers and those on or near shore.
- **Educate Yourself** prior to your trip by obtaining travel maps and regulations from public agencies. Plan for your trip, take recreation skills classes and know how to operate your equipment safely.
- **Avoid Sensitive Areas** on land such as meadows, lakeshores, wetlands and streams. Stay on designated routes. This protects wildlife habitats and sensitive soils from damage. Don't disturb historical, archeological or paleontological sites or remove artifacts. On water, avoid operating your watercraft in shallow waters or near shorelines at high speeds.
- **Do Your Part** by modeling appropriate behavior: leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species and repairing degraded areas.

To learn more about how you can recreate responsibly, visit the Tread Lightly! website at www.treadlightly.org.

Ride On
The recreational use of off highway vehicles (OHVs) is an important quality of life activity for many Utahns. RIDE OHV Designated Routes is a new statewide campaign that has united land management agencies to educate outdoor recreationists who use OHVs on Utah's public lands. Utah's public land management agencies have the following goals related to this OHV awareness campaign: 1) Minimize resource damage from the use of OHVs, 2) Promote safe operation of OHVs, and 3) Promote ethical uses of OHVs.

Litter
Pick up litter and leave public and private lands better than you found them. Pack out what you pack in. Pick up garbage or litter others may have carelessly left behind.

Utah Governor's Office of Economic Development
801-538-8700
www.business.utah.gov/

The Governor's Office of Economic Development (GOED) charter is based on Governor Gary Herbert's commitment to economic development statewide. Utah's economic development vision is that Utah will lead the nation as the best performing economy and be recognized as a premier global business destination. The mandate for this office is to provide rich business resources for the creation, growth, and recruitment of companies to Utah, and to increase tourism and film production in the state. GOED accomplishes this mission through the administration of programs that are based around targeted industries or "economic clusters" that demonstrate the best potential for development. GOED utilizes state resources and private sector contracts to fulfill its mission.

Utah Tourism Industry Coalition
175 South West Temple #140
Salt Lake City, UT 84101
www.utatourism.org

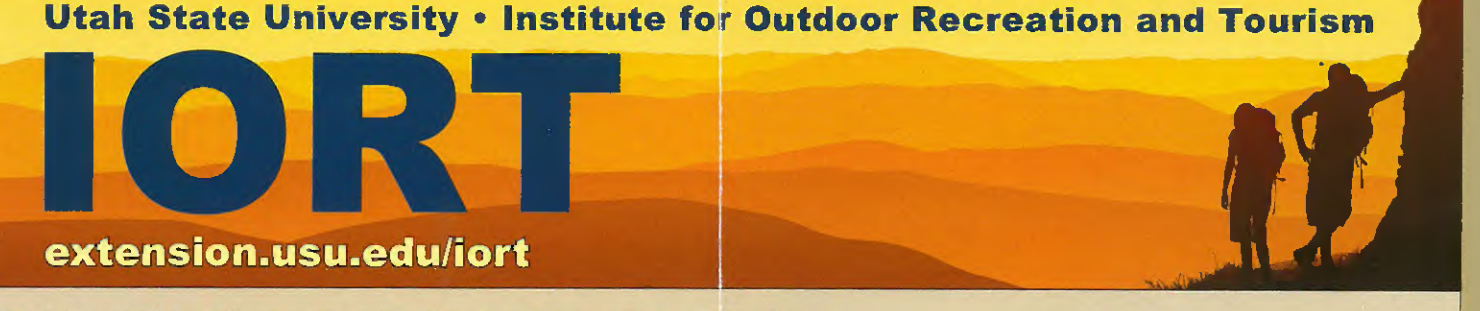

The Utah Tourism Industry Coalition (UTIC) was formed to serve as the coordinating body for the combined interests of associations, chambers, organizations, businesses, and individuals engaged in serving and developing tourism in Utah. In contrast to individual tourism entities, UTIC represents the interests of all industries. UTIC is an activist organization that focuses on issues of concern to all organizations involved in tourism rather than just the narrower interests of individual tourism entities.

Snowboarding at Brian Head Ski Resort - Utah Office of Tourism

Utah State University, Institute for Outdoor Recreation and Tourism
5220 Old Main Hill
Logan, Utah 84322-5220
extension.usu.edu/iort

The Institute for Outdoor Recreation and Tourism (IORT) conducts a program of research, public service, and teaching to help people understand relationships between outdoor recreation and tourism, natural resources management, community economic vitality, and quality of life. With cooperation from our partners, IORT assists communities and other organizations in identifying issues and making decisions about natural resources based recreation and tourism affecting social, economic, and environmental systems. As a source of information, IORT can help people learn more about the role of natural resources in outdoor recreation and tourism development in order to enhance both community, economic, and environmental sustainability.

Visit one of our 30 Utah Offices or online at www.extension.usu.edu

A respected leader in the state, region, and world for its quality education programs, addressing critical needs of the citizens of Utah using research-based information, Utah State University Cooperative Extension programs are delivered utilizing state-of-the-art methods and technology and connect with more than one million diverse customers each year. USU Cooperative Extension is an evolving organization and unique in structure and function with federal, state, and local partnerships. As new challenges and opportunities arise, specific outreach programs are developed to meet the changing needs of Utah and the region. Extension agents and campus faculty deliver programs in diverse areas that include:

4-H and Youth - Gardening
Home and Family - Business and Communities
Food, Nutrition and Health - Finance and Consumer Life
Agriculture and Natural Resources

Pauite ATV Trail
South-Central Utah's Pauite ATV Trail is a 275-mile long loop designed to provide an enjoyable recreational ride through fantastic scenery. The trail was formed by connecting old roads and trails crossing the Fishlake National Forest with intervening BLM-administered land. The Pauite ATV Trail also includes over 1,000 miles of marked side trails and 1500 miles of side forest roads and trails. For more information on exploring the Pauite ATV Trail, visit www.marvayale.org/pauite_trail/contents.html

Sunset Point, Bryce Canyon National Park - Utah Office of Tourism / Tom Till

U.S. Department of the Interior National Park Service
www.nps.gov/

The National Park Service preserves unimpaired the natural and cultural resources and values of the national park system for the enjoyment, education, and inspiration of this and future generations. The National Park Service cooperates with partners to extend the benefits of natural and cultural resource conservation and outdoor recreation throughout this country and the world. In Utah, the National Park Service manages five national parks, six national monuments, one national historic site, one national recreation area, and four national historic trails. Camping reservations at some parks can be made at: 1-877-444-6777 or at www.recreation.gov

National Historic Trails
California National Historic Trail 801-741-1012
www.nps.gov/cal

Follow in the footsteps of over 250,000 emigrants who traveled to the gold fields and rich farmlands of California during the 1840s and 1850s - the greatest mass migration in American history. More than 1,000 miles of trail ruts and traces can still be seen across 10 states on the California National Historic Trail.

Mormon Pioneer National Historic Trail
801-741-1012
www.nps.gov/mopi

Explore the Mormon Pioneer National Historic Trail across five states to see the routes 60,000 Mormons traveled from 1846 to 1869 to escape religious persecution. The Pioneer Company of 1846-1847 established the first route from Nauvoo, Illinois, to Salt Lake City, Utah, covering about 1,300 miles.

Utah's Heritage Areas

Heritage Areas are established in places where natural, cultural, and historic resources combine to form a cohesive, nationally important landscape. Through these resources, Heritage Areas tell nationally important stories that celebrate America's diversity.

Great Basin National Heritage Area
775-234-7171
www.greatbasinheritagae.org

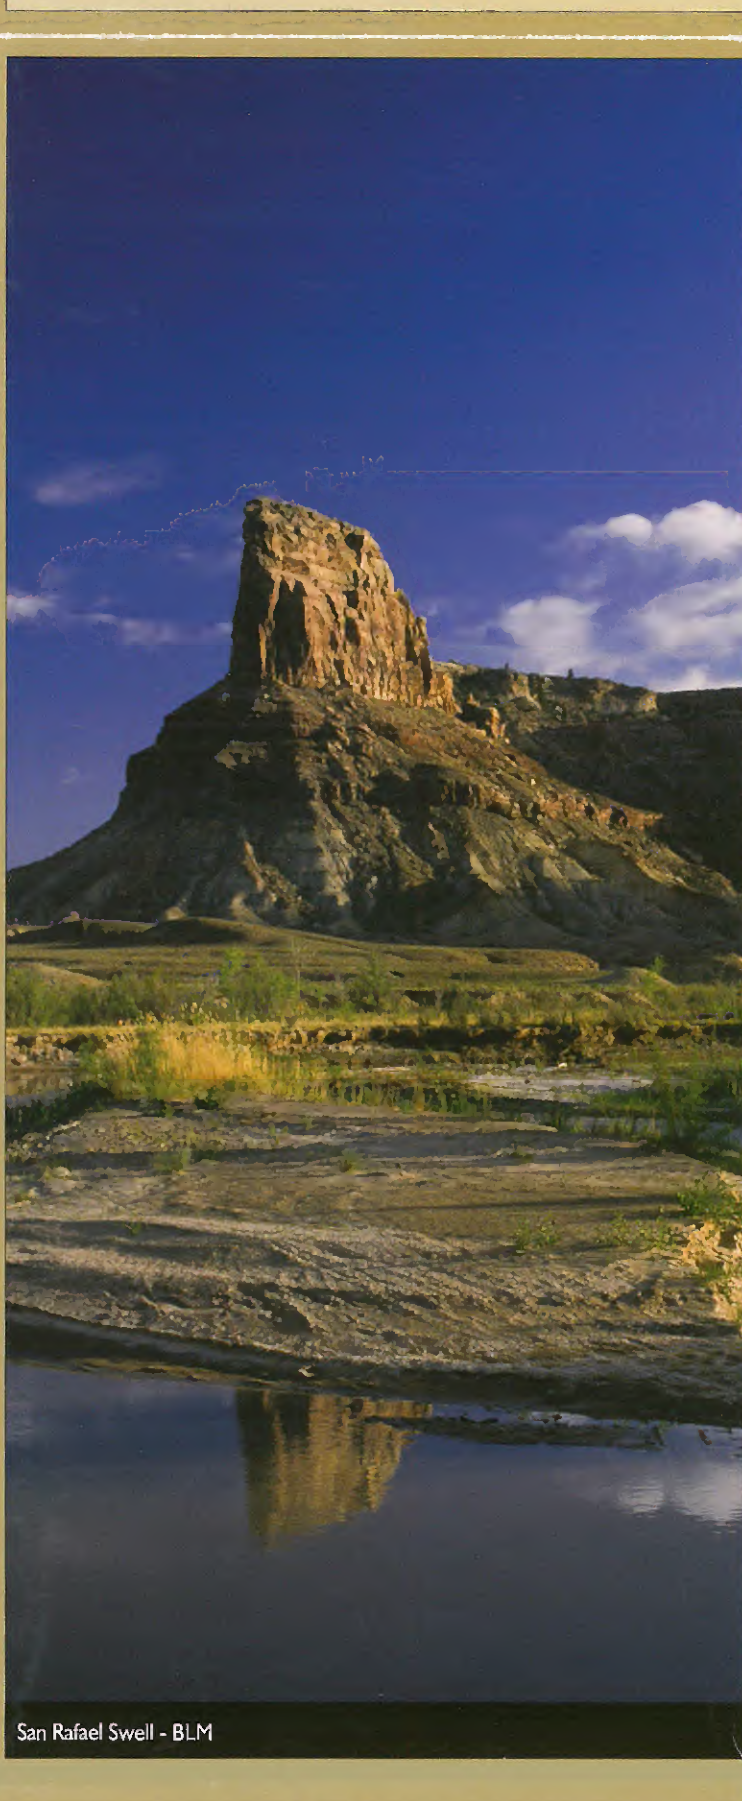

The Great Basin National Heritage Area encompasses Millard County, Utah, White Pine County, Nevada, and adjacent Indian reservations. This landscape contains nationally significant archaeological, historical, cultural, natural, and scenic features that are emblematic of the entire Great Basin Area.

Mormon Pioneer National Heritage Area
435-462-2502 x104
www.mormonpioneerheritage.org

Located along U.S. Highway 89 from Fairview, Utah, to Page, Arizona, the Mormon Pioneer National Heritage Area is comprised of five unique areas: Little Denmark, Sevier Valley, Headwaters, Under the Rim, and the Boulder Mountain Loop. You will discover five distinct ways of life in each of these places, where a delightful blend of art galleries and artisan studios, heritage lodging, western adventures, historic sites, local celebrations, antiques and indigenous foods can be found throughout the entire area.

Bear River Heritage Area
170 North Main Street
Logan, Utah 84321
435-713-1426
www.bearriverheritage.com/

The Bear River Heritage Area straddles the Utah-Idaho border where the Great Basin and the Rocky Mountains meet. Several pioneer trails, including the Oregon Trail, pass through the area. It is the ancestral home of the Northwest Band of Shoshone, who still live here. The fur trade made its mark as trappers roamed the mountains and valleys in the early 1800s, and Mormon settlers colonized the region in the 1850s and 1860s. Now the area is home to many ethnic groups, a strong agricultural economy, a history-laced landscape, and natural beauty everywhere you turn.

San Rafael Swell - BLM

Bear River Migratory Wildlife Refuge - USFWS / Brian Ferguson

U.S. Department of the Interior U.S. Fish and Wildlife Service
www.fws.gov

Utah visitors are invited to visit the five special units of public lands managed by the U.S. Fish and Wildlife Service, dedicated to the conservation, protection, and enhancement of fish and wildlife resources and their habitats. Three of the units are part of the National Wildlife Refuge System, a system of over 550 refuges nationwide. The other two units are part of the National Fish Hatchery System, which includes over 70 hatcheries across the country.

Bear River Migratory Bird Refuge is world-renowned for the millions of migrating water birds that congregate during the spring and fall months.

Fish Springs National Wildlife Refuge, surrounded by desert, serves as another oasis for migrating water birds and mammals native to the Great Basin.

Oquirrh National Wildlife Refuge, located along the Green River, offers valuable habitat to a variety of wild birds and animals. Jones Hole National Fish Hatchery rests in a spectacular geologic setting, bordering the Dinosaur National Monument.

Old Spanish National Historic Trail
905-988-6098
www.nps.gov/olsp

Follow the routes of mule pack trains across the Southwest on the Old Spanish National Historic Trail between Santa Fe, New Mexico, and Los Angeles, California. New Mexican traders moved locally produced merchandise across what are now six states to exchange for mules and horses.

Pony Express National Historic Trail
801-741-1012
www.nps.gov/peox

It is hard to believe that young men once rode horses to carry mail from Missouri to California in the unprecedented time of only 10 days. This relay system along the Pony Express National Historic Trail in eight states was the most direct and fastest means of east-west communications before the telegraph.

Utah School and Institutional Trust Lands Administration
675 East 500 South, Suite 500
Salt Lake City, UT 84102
801-538-5100
www.trustlands.utah.gov

The Utah School and Institutional Trust Lands Administration (SITLA) administers 3.4 million acres of land across the state. The mission of SITLA is to "administer school trust lands prudently and profitably for Utah's schoolchildren and the other trust beneficiaries." These trust lands had their origin when Utah was granted statehood on January 4, 1896, and the federal government gave the state certain parcels and grants of land to be managed in trust in order to provide financial support for public education and eleven other public institutions (beneficiaries). The lands are scattered throughout the state and are generally found in one-mile square sections but have also been consolidated into various larger blocks.

Most of the recreational use on trust lands occurs on the 60 plus blocks of trust lands, each of which comprises more than 5,000 acres. Notable blocks of trust land include the Book Cliffs, Tabby Mountain, North and South La Sal Mountains, Cinnamon Creek, Parker Mountain, and Beaver Mountain.

The Bureau of Land Management's mission is to sustain the health, productivity, and diversity of America's public lands for the use and enjoyment of present and future generations. While protecting a wide array of natural, scenic, and archeological resources, the Bureau manages the public lands for multiple uses, including energy development, livestock grazing, recreation, and timber harvesting. The Bureau administers almost 22 million acres of public land in Utah, or 40% of the state, that are available for you to explore. Some of America's premier outdoor recreation destinations are located on these public lands, such as the red rock canyon country surrounding Moab, whitewater adventures on the Colorado, Green, and San Juan rivers, and world famous canyoneering opportunities along the Dirty Devil, Escalante, and San Rafael rivers.

The Bureau manages over 120 developed campgrounds, picnic areas, boat ramps, and trailheads across Utah, as well as numerous components of the National Landscape Conservation System, including 18 Wilderness Areas, 87 Wilderness Study Areas, 19 miles of Wild and Scenic Rivers, two National Historic Trails, two National Conservation Areas, and the Grand Staircase-Escalante National Monument.

For campground or cabin reservations:
Call 1-877-444-6777 or visit www.recreation.gov

Utah is home to over 9.2 million acres of public land managed by the US Forest Service. The live National Forests within the state provide a vast array of recreation opportunities - from snow play in the mountains of the Wasatch Range to biking and the red-colored cliffs of southern Utah. Take a drive on one of the many spectacular state or national scenic byways and backways that cross through forests while keeping an eye out for the moose, elk, birds or wildflowers that live here. Dip a fishing line or pop a kayak into one of the state's many streams, rivers and lakes that have their origins in a National Forest. Check out a rental cabin, camp in one of the many campgrounds, or take a ride on an OHV trail. Whatever type of outdoor recreation you enjoy, you will find it on your National Forest.

For information about the individual forests, visit the listed websites.

Archaeological Site Etiquette

Utah is fortunate to have a rich cultural heritage spanning thousands of years. Many historic and prehistoric interpretative sites are open to visitors statewide. Our past, however, is being threatened by people who collect artifacts, dig archaeological sites, and vandalize rock art panels. Many visitors do not realize these actions have harmful results. These illegal activities destroy data, attack Native American cultural heritage, and rob from other people the opportunity to appreciate and understand other cultures and human history. If you see people vandalizing sites, please report it as soon as possible by calling 1-800-VANDALS. Obtain as much information about the people without putting yourself in danger.

How You Can Help Protect and Preserve Rock Art

Do Not Touch rock art. Your hands can damage it.

Do not make paper rubbings or tracings. They may damage the rock art.

Do not make latex molds of rock art. They can damage it. This should only be done by professionals if rock art is going to be destroyed by construction or development.

Do not build fires nearby. They can cause serious damage from smoke and high temperature.

Do not take it home. It is against the law to seal rock art. Vandalism using rock saws and chisels to cut the rock.

Do not chalk. It is harmful to the rock art, and makes it impossible to use new methods of dating the figures.

Do not re-peck or re-paint. This doesn't restore it, but rather destroys the original.

Do not deface. Painting names over rock art or shooting bullets at it are all forms of defacement and are signs of disrespect for other cultures.

Watch where you are walking and be careful not to trample or damage artifacts.

Do not remove or rearrange artifacts. This destroys the data. Leave artifacts where they are found.

Tread lightly. Digging at a site is not allowed. Driving off designated roads may also damage archaeological sites.
